

Full-time Architectural Design

archittraveler0426@gmail.com
(01)518-961-8649

- Dual Master's degrees in Architecture (Tongji & RPI) with expertise in computational and parametric design. Familiar with robotic fabrication and hands-on experimentation.
- 12 years of architectural design experience in China, skilled in leading projects from client communication and concept design to multidisciplinary coordination, planning approval, construction documentation, and inspection.
- Valid F1-OPT work visa through 2028

Rensselaer Polytechnic Institute (RPI)
Troy, NY State, USA
Master of Science degree in Architecture
2024-2025 GPA: 3.98/4.0

Tongji University (TJU)
Shanghai, China
Master's degree in Architecture
2023-2026 GPA: 4.62/5.0

University of South China (USC)
Hunan, China
Bachelor's degree in Architecture
2007-2011

Architectural Design Synthesis

Integrating Urban, Landscape, and Interior Scales

Aesthetic and Performance-Driven Design

Integrating Structure, Energy, and Aesthetics

Team Leadership & Problem-Solving

Project Management Mindset and Experience

BIM, Modeling, Drafting

Revit (3 Years, Proficiency in Revit workflow, from parametric family creation, 3D modeling to detailed drawing production and schedule extraction.)

Rhino, Grasshopper (5 Years Experience in Parametric Design)
AutoCAD, SketchUp (14 Years Expertise)

Visualization

D5 Rendering (Advanced Proficiency)

Lumion, Enscape

Adobe Suite

Photoshop, InDesign, Illustrator, Lightroom

Others

Drone-based photogrammetry, QGIS, Python, MS Word, Excel, PowerPoint, etc.

Landcult Architectural Design Co., Ltd.	Guangzhou, China
Senior Architect/Lead Designer	05/2016 – 12/2022

- **Design-Driven Project Wins.**
Successfully led the team to win the projects in the competitive bidding process, including Blooming Valley (Hainan) and Tianlu City (Shigatse) through design competitions.
- **Integrated Design Delivery.**
Integrated client feedback, technical constraints, and regulatory requirements while coordinating with structural, MEP, and HVAC engineers. Communicated design intent through clear visual and written presentations for client and government approvals.
- **Team Collaboration.**
Directed a 5-member team to deliver design projects on schedule, gaining experience in collaboration, communication, time management, and quality control.

Teamer Architectural Design Consultants Co., Ltd.	Guangzhou, China
Junior Architect /Architectural Designer	07/2011 – 03/2016

- **Hospitality Project Experience.**
Participated in multiple hotel design projects, including Hainan Mingshi Bay Five-Star Hotel, LUX Chongzuo Guangxi Resort Villas, and Boutique Hotel in Sichuan.
- **Design Process Support.**
Supported senior architects during design, gaining hands-on experience in Rhino, AutoCAD, SketchUp, and Adobe Suite while working with documentation teams and consultants.

Tongji Architectural Design (Group) Co., Ltd.	Shanghai, China
Fall-Time Architecture Intern	06/2024 – 08/2024, 05/2023 – 08/2023

- **Assisted in Architectural Design Competitions**
Contributed to design bids for Shenzhen Pingshan Sports Park and South Shanghai Sports Center. stadium plan drafting, site and stadium modeling in Rh and GH, and D5 rendering.
- **Revit Construction Modeling**
Assisted in construction documentation for Wuxi Symphony Hall Complex, including parametric modeling of stairs and curtain walls, partial BIM modeling.

Techbeam Design LLC.	Palo Alto, United State
Part-Time Architecture Intern	09/2025 – Present

- **Design & Permit Assistants**
Assisted supervisor with client requirements, revised residential layouts, and supported planning review and building permit applications.

- **Form-Finding and Optimization of Large-Span Structures ,**
Graduate Thesis (in progress).
Conducted parametric studies on grid shell structures using Kangaroo and Karamba3D, exploring how boundary, support, and mesh variables influence structural form and mechanical performance.
- **Dynamic Bamboo Structures with Performance-Based Design,**
Research Design and Construction.
2024 DigitalFUTURES Workshop. Used graphic statics for structural optimization and applied digital twin technologies to enhance precision in traditional bamboo craftsmanship.
